

PAYMENT TYPE BREAKDOWN

Tools > Reports > Transactions > Payment Type Breakdown

The Payment Type Breakdown is a graphical report which shows your sales total for the specified date range broken down by payment type. The amount of revenue gained from each payment type is displayed in both pie chart and bar graph format. The pie chart key also shows the percentage of total value for each payment type.

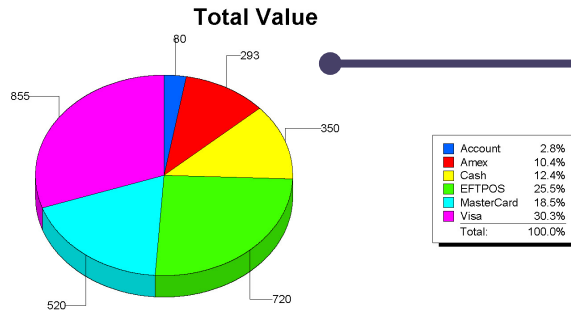

This report is useful for comparing the value of sales for each of your payment types.

BAR GRAPH

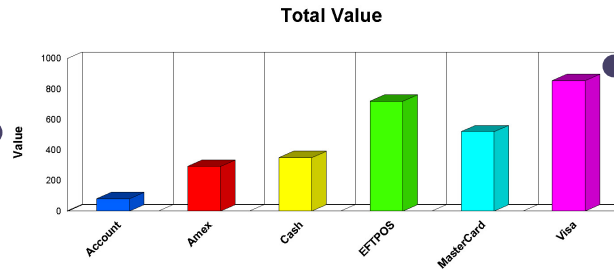

This graph shows the total value of sales for each payment type.

Payment Type Breakdown

From: Thursday, 14 July, 2016
To: Friday, 22 July, 2016
Time Period: 9 Days (1.3 Weeks)

Payment Type	Percentage
Account	2.8%
Amex	10.4%
Cash	12.4%
EFTPOS	25.5%
MasterCard	18.5%
Visa	30.3%
Total:	100.0%

PIE CHART

This chart displays the total value of sales for each payment type.

PIE CHART KEY

This key shows the percentage of total value for each payment type.

FURTHER DETAILS

You can double click on a particular payment type in either of the graphs to drill into the report. This will allow you to view a list of transactions processed under this payment type, including details such as the client's name, date, time and the amount spent.

Note: Figures are GST inclusive
 Note: Payments on Expenses are not shown, this report only includes payments made on sales
